

CSS Industries, Inc.

Environmental and Sustainability Statement

Issued January 2014

CSS Industries, Inc. is committed to protecting the health and safety of our employees and conducting our operations in an environmentally responsible manner.

- We strive for an injury-free workplace through a strong health and safety processes supported by active employee engagement and management involvement. We train our employees to conduct their activities in a safe and environmentally responsible manner.
- We are committed to conducting our operations in accordance with all applicable laws and regulations. We expect our suppliers to adhere to the applicable environmental laws of the countries, regions and cities in which they operate.
- We are committed to protecting the environment through responsible resource and waste management as well as continuous improvement. This includes, but is not limited to:
 - We encourage recycling and energy conservation, including utilizing automatic shut-off lighting and regulated climate control along with the recycling of toner cartridges, plastic bottles, boxes and paper in most locations.
 - In our manufacturing and distribution facilities, we:
 - Continuously look for ways to improve our processes which has resulted in significant reductions in raw material usage and packaging.
 - Have an aggressive recycling program for plastic and paper scraps as well as corrugate.
 - Utilize water based inks to reduce emissions.
 - Reuse materials whenever possible, including pallets and boxes for internal shipments.
 - Reduce our energy usage through efficient motors and lighting as well as equipment and process controls.
 - Participate in “interrupted power” programs that aid local utilities in managing their peak power requirements (when available).
 - Focus on optimizing trailer utilization in an effort to minimize our transportation needs.
- We actively pursue opportunities to design our products and packaging for recyclability and to develop new products made from recycled materials.
